

Homework

Please find below three English tasks and three Mathematics tasks for children to complete for their homework this week. Our recommendation is that children complete Task 1 for English and Maths on Tuesday, Task 2 for both on Wednesday and Task 3 for both on Thursday. This short, frequent style of homework will support children to consolidate their learning. Please find the answers on the class page. **The expectation is that children mark alongside parents/carers or self-mark.**

Children are to hand in their homework on **Monday morning**, alongside their reading record.

Maths Answers

Fluency

Varied Fluency

12	<	35
43	<	47
3+6	<	10
20+8	>	25
46	=	30+16
88	>	70+17
22+3	>	20+1

Reasoning

Any answer greater than 16.

Lucie is correct.

The number must be **greater than 16** because:

$$16 < \square$$

- **99** is greater than 16, so it could be the missing number.
- **21** is also greater than 16, so **Joe is also correct.**

6. Lucie and Joe are comparing numbers.

sixteen <

Lucie

The missing number could be ninety-nine.

Joe

The missing number could be twenty-one.

Who is correct? Explain how you know.
