St. Peter's Catholic Primary School

Year 5 Homework Autumn 1st Week 8: 19.10.26

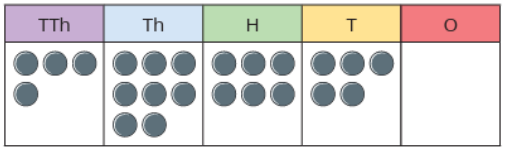

Please find below three English tasks and three Mathematics tasks for children to complete for their homework this week. Our recommendation is that children complete Task 1 for English and Maths on Tuesday, Task 2 for both on Wednesday and Task 3 for both on Thursday. This short, frequent style of homework will support children to consolidate their learning. Please find the answers below. The expectation is that children mark alongside parents/carers or self-mark.

Children are to hand in their homework by Friday morning, alongside their reading record.

English		
Task 1: Grammar and punctuation	Task 2: Reading comprehension	Task 3: Spellings
LI: To punctuate speech Add in the inverted commas to these sentences. We are moving to London, Father told William as he paced through the study. Why would we be in danger? William asked his Father. You are a Papist! Lord Howard declared.	LI: To use skimming and scanning to locate facts After a few weeks, Mary and her aunt set off to London. They galloped across the very moorlands, past the cliffs, that had changed their lives that dreadful day. Mary gulped as she remembered the feeling of emptiness when Elizabeth had gone and how her Aunt had privately fallen to her knees at the news. The journey to London was long. As they halted their tired horses, they we heard the sound of London on the wind. The mad ding-dong of hundreds of church bells and the thunder of carriage wheels echoed as they stood on the hill. The din of the city rose to them: hammering, bleating, chiming, babbling. Mary looked down at the spires, turrets and the buildings with black smoke hanging over their roofs. She saw the twisting river bustling with boats and swarms of people like maggots on a carcass. They	Please practice the spellings below and the x3, x6, x12, x4, x8 tables AND division facts for a test on Friday. forgetting limiting travelling allowing following admitting preferring explaining bargaining interrupting

Henry VIII asked, Why are you here? *William cried, Father, is that really you?*	passed the house of Catherine Howard, a close friend of Lady Moore. "If anything should happen to me, Mary," she said, "you must come here to Lady Catherine's house." "What might happen to you?" Mary asked, but her aunt did not answer. 1) What had Mary's aunt done when she heard the news? 2) How did they get to London? 3) Describe 'the sound of London' that Mary heard. 4) Find and copy a smilie. 5) Who was a close friend of Lady Moore.	

Mathematics

Task 1: Fluency	Task 2: Varied Fluency	Task 3: Reasoning
• Use the place value chart to help you work out the subtractions  ▸ 48,650 – 3,000 ▸ 48,650 – 200 ▸ 48,650 – 10 ▸ 48,650 – 3,210 ▸ 48,650 – 7,100 ▸ 48,650 – 5,030	2. Complete the calculations by adjusting and compensating. 258 + 103 = 657 + 395 = 12,650 – 499 = 200,000 – 79,999 = 103,500 – 2,999 = 450,500 + 99,000 =	

		Tiny is using mental strategies to add numbers. I know 800 + 300 = 1,100, so 4,826 + 300 = 41,126  Explain why Tiny is wrong. Find the correct answer to 4,826 + 300

Homework answers:

Grammar and Punctuation

"We are moving to London," Father told William as he paced through the study.

"Why would we be in danger?" William asked his Father.

"You are a Papist!" Lord Howard declared.

Henry VIII asked, "Why are you here?"

William cried, "Father, is that really you?"

Comprehension

1) Fallen to her knees
2) Rode their horses/ on horseback
3) ding-dong of hundreds of church bells; thunder of carriage wheels; din of the city: hammering, bleating, chiming, babbling
4) like maggots on a carcass
5) Catherine Howard

Maths

Fluency

45,650	48,450	48,640
45,440	41,550	43,620

Varied Fluency

2.

258 + 103 = 361
258 + 100 then add 3

657 + 395 = 1,052
657 + 400 then subtract 5

12,650 – 499 = 12,151
12,650 – 500 then add 1

200,000 – 79,999 = 120,001
200,000 – 80,000 then add 1

103,500 – 2,999 = 100,501
103,500 – 3,000 then add 1

450,500 + 99,000 = 549,500
450,500 + 100,000 then subtract 1,000

Reasoning

Tiny is using mental strategies to add numbers.

I know
800 + 300 = 1,100,
so 4,826 + 300 = 41,126

Explain why Tiny is wrong.

Find the correct answer to
4,826 + 300

No because Tiny has not exchanged into the thousand column

The correct answer should be 5,126
